# 1979 Computer Design Index

## Annual listing of editorial feature articles and columns by subject and by author

## SUBJECT INDEX

### COMPONENTS

#### Buses

LSI Chips Ease Standard 488 Bus Interfacing, R. M. Williams ..... Oct, p 123

Military Multiplex Standard Defines Versatile Serial Bus, D. R. Brickner ..... Dec, p 93

Unified Approach to Designing Hardware Based on IEEE Std 488, A. N. Ghannam and M. M. Fayez ..... Sept, p 105

#### Power Sources

Guidelines for Designing Battery Backup Circuits for CMOS RAMs, D. C. Young ... Aug, p 117

#### Printheads

Thermal Printhead Technology and Design, W. Boles ..... Oct, p 134

#### Relays

Individual Control of Relays in a Matrix, NASA ..... Apr, p 120

#### Timers

Programmable Timer Provides Accurate Interval Measurements, F. H. Carlin and J. A. Howard ..... May, p 213

### COMPUTERS

#### Architecture

Add-In Cache Memory Doubles Minicomputer Processing Speed, R. N. Monroe ..... Oct, p 115

Comparison of Selected Array Processor Architectures, S. P. Hufnagel ..... Mar, p 151

Parallel Processor Architectures—Part 1: General Purpose Systems, K. J. Thurber .. Jan, p 89

Part 2: Special Purpose Systems, K. J. Thurber ..... Feb, p 103

Processor Architecture Anticipates Future Performance Requirements, R. E. Birney... Apr, p 71

#### Array Processors

Comparison of Selected Array Processor Architectures, S. P. Hufnagel ..... Mar, p 151

Interfacing Peripherals Directly to an Array Processor, P. Wiley ..... Aug, p 158

Parallel Processor Architectures—Part 1: General Purpose Systems, K. J. Thurber .. Jan, p 89

#### Associative Processing

Parallel Processor Architectures—Part 2: Special Purpose Systems, K. J. Thurber ... Feb, p 103

#### Auxiliary Units

Queue Handling Arbiter Solves Shared Resource Conflicts, K. S. Højberg ..... Nov, p 129

#### Microcomputers

See **MICROCOMPUTERS**

#### Microprocessors

See **MICROPROCESSORS**

#### Microprogramming

Assembler Streamlines Microprogramming, T. Balph and W. Blood ..... Dec, p 79

Bit-Slice Technique Minimizes Microcontroller Cost/Complexity, D. Hooley ..... Oct, p 105

Technology and Economics: Manufacturing Cost for a Microprogrammed System, M. Phister, Jr. ..... Dec, p 26

#### Multiprocessors

Parallel Processing Architectures—Part 1: General Purpose Systems, K. J. Thurber .. Jan, p 89

Queue Handling Arbiter Solves Shared Resource Conflicts, K. S. Højberg ..... Nov, p 129

#### Simulation and Analysis

Forecasting Computer System Reliability with a Handheld Programmable Calculator, R. Zussman ..... Mar, p 141

Reliability Computations on a Handheld Programmable Calculator, C. R. Lewart .. Nov, p 138

#### General

Computer Equipment Shielding Techniques, J. Severinsen ..... Sept, p 132

Weights and Scores Approach to Computer Evaluation, G. G. Schulmeyer and B. Martinian ..... Aug, p 150

### CONTROL AND AUTOMATION

#### Data Acquisition

Dual Word Length Serial Protocol Improves Data Acquisition Network, J. W. L. Prak and E. J. Sliger ..... Nov, p 105

Logic Variable Format Techniques For Efficient Process Control I/O, R. Bhargava and A. K. Chandra ..... May, p 203

Speech Input System Aids Parts Traceability In Hybrid Bonding Facility ..... Nov, p 82

#### Data Conversion

Adapting Microcomputer Technology to Controller Applications, G. Adams ..... Aug, p 194

# 1979 Computer Design Index

Forecasting Computer System Reliability with a Handheld Programmable Calculator, R. Zussman ..... Mar, p 141

Reliability Computations on a Handheld Programmable Calculator, C. R. Lewart .. Nov, p 138

#### General

Computer Equipment Shielding Techniques, J. Severinsen ..... Sept, p 132

Weights and Scores Approach to Computer Evaluation, G. G. Schulmeyer and B. Martinian ..... Aug, p 150

### CONTROL AND AUTOMATION

#### Data Acquisition

Dual Word Length Serial Protocol Improves Data Acquisition Network, J. W. L. Prak and E. J. Sliger ..... Nov, p 105

Logic Variable Format Techniques For Efficient Process Control I/O, R. Bhargava and A. K. Chandra ..... May, p 203

Speech Input System Aids Parts Traceability In Hybrid Bonding Facility ..... Nov, p 82

#### Data Conversion

Adapting Microcomputer Technology to Controller Applications, G. Adams ..... Aug, p 194

**Environmental**

Microprocessors are Key Control Elements in Energy Management Systems ..... Aug, p 90

**Inventory**

Danish Computerized Mail Processing System Provides 1-Day Turnaround ..... Mar, p 101

**Laboratory**

Intelligent Controller Increases Data Throughput, Reduces Host Overhead, C. A. Samuelson ..... July, p 120

**Machine Tool/Numerical Control**

Microcomputer Control System Maintains Slide Drive Positioning Accuracy ..... Apr, p 48

**Manufacturing/Production**

Bit Slice Approach for Small Stack Processor Aids Design of Blending System, G. A. Cummings and G. S. Miller ..... Oct, p 74

Cold Rolling Mill for High Carbon Steel Strip Automated by Microcomputer ..... Mar, p 80

Compact Controller Manages Industrial Systems in Real Time ..... Feb, p 47

Computers Control and Test Processes in Entire Pharmaceutical Tablet Manufacturing Plant ..... May, p 70

Five Minicomputers Control Entire Wood Processing Plant ..... Dec, p 58

Vision Expands Robotic Skills for Industrial Applications, S. F. Shapiro ..... Sept, p 78

**Test**

Microcomputers Replace Mainframe for Test System Signal Processing ..... June, p 80

**Transportation**

4-Bit Single-Chip Microcomputers Serve in Automotive Applications ..... June, p 74

Integrated Control System Expected to Ease Mexico City Traffic Congestion ..... June, p 85

Traffic Control System Uses Laser Communication Link ..... Mar, p 96

**Utilities**

Microprocessors are Key Control Elements in Energy Management Systems ..... Aug, p 90

**General**

5th Annual IECI Conference Reviews Online Industrial and Control Microprocessor Applications ..... July, p 66

Vision Expands Robotic Skills for Industrial Applications, S. F. Shapiro ..... Sept, p 78

**DATA COMMUNICATIONS**

**Controllers**

Hardware Link Directs Multicomputer Interactions in Process Control, A. D. Marathe and A. K. Chandra ..... Feb, p 93

**Data Transmission**

Efficient Encoding Scheme, NASA ..... Oct, p 142

Emergence of the Integrated Services Digital Network, R. W. DeWitt ..... June, p 14

Expanding UART Word Widths for Low Speed Data Transmission, J. D. Meng ..... Aug, p 134

High Speed Low Error Data Transmission with Fiber Optics, H. O. Sorensen ..... Mar, p 166

Local Network Architectures, J. M. McQuillan ..... May, p 18

Packet Satellite Techniques, R. Binder ..... Nov, p 8

Trends in the Digital Transmission of Voice and Image Signals—Part 1: Voice Digitization, I. Richer ..... July, p 12

Part 2: Image Digitization, I. Richer ..... Aug, p 12

**Fiber Optics**

High Speed Low Error Data Transmission with Fiber Optics, H. O. Sorenson ..... Mar, p 166

Optical Link Design and Component Selection, N. Goldberg and J. A. Eibner ..... May, p 218

**Interconnect Arrangements**

Distributed System Hardware Design Offers Interchangeable Communications, E. J. Steubesand ..... Sept, p 14

Noise Tolerant Computer Link, NASA ..... Aug, p 168

**Multiplexers**

Cost-Effective 64-Channel Multiplexer System, N. Urkumyan ..... July, p 114

Military Multiplex Standard Defines Versatile Serial Bus, D. R. Brickner ..... Dec, p 93

**Networks**

Distributed System Hardware Design Offers Interchangeable Communications, E. J. Steubesand ..... Sept, p 14

Dual Word Length Serial Protocol Improves Data Acquisition Network, J. W. L. Prak and E. J. Sliger ..... Nov, p 105

Emergence of the Integrated Services Digital Network, R. G. DeWitt ..... June, p 14

Local Network Architecture, J. M. McQuillan ..... May, p 18

**Protocols**

Data Communications Testing Overview—Protocol Analysis, J. R. Duerr ..... Feb, p 10

Dual Word Length Serial Protocol Improves Data Acquisition Network, J. W. L. Prak and E. J. Sliger ..... Nov, p 105

Military Multiplex Standard Defines Versatile Serial Bus, D. R. Brickner ..... Dec, p 93

Software Error Checking Procedures for Data Communication Protocols, J. Wong, *et al* ..... Feb, p 122

**Regulations**

Transnational Data Regulation, J. W. Hughes ..... Jan, p 12

**Security**

Secure Communications System, NASA ..... July, p 145

**Software**

Software Error Checking Procedures for Data Communication Protocols, J. Wong, *et al* ..... Feb, p 122

**Systems**

Videotex and Teletext Systems, J. W. Hughes . . . . . Oct, p 10

**Test**

Data Communications Testing Overview—
Analog Testing, J. R. Duerr . . . . . Apr, p 10
Digital Testing, J. R. Duerr . . . . . Mar, p 12
Protocol Analysis, J. R. Duerr . . . . . Feb, p 10

**General**

Hardware Interrupt Structures Permit Multiprogramming Operating System, R. J. Gallagher . . . . . Dec, p 14

## DIGITAL CIRCUITS

**Arithmetic**

Bit Synchronizer Lock Detector, NASA . . . . . Dec, p 110

Multiplier/Divider Hardware Design Accelerates Microprocessor Throughput, F. G. Gerberich and R. S. Rodgers . . . . . June, p 105

**Custom Circuits**

IIL Gate Arrays Make Custom ICs Economically Feasible, W. D. O'Neil . . . . . Sept, p 168

Implementing a Digital Filter in Custom LSI—
Chip Area Considerations, L. Schmidt . . . . June, p 184
Reducing Multiplier Area, L. Schmidt . . . . . July, p 180

**Logic**

Automatic Network Synthesizer Identifies Standard LSI Cells, J. R. Logan . . . . . Sept, p 113

A Cost-Effective Approach to Bipolar VLSI Computer Circuits, J. Prioste . . . . . May, p 270

TTL Circuit Encodes Multiplexed Keyboards Without Strobes, D. E. Brodnick . . . . . July, p 148

**Memory**

Compatible ROM/EPROM Families Add Flexibility to Microprocessor Designs, T. Coffman . . . . . Nov, p 185

RAM Reliability in Large Memory Systems—Significance of Predicting MTBF, R. Koppel . . . . . Feb, p 148

Update on EPROMs, M. Adan and S. Smith . . Jan, p 162

**Technologies**

IIL Gate Arrays Make Custom ICs Economically Feasible, W. D. O'Neil . . . . . Sept, p 168

Individual Control of Relays in a Matrix, NASA . . . . . Apr, p 120

**General**

Synchronous Transfer Circuits for Redundant Systems, NASA . . . . . Aug, p 166

Technology and Economics:
IC Power Dissipation vs Price, M. Phister, Jr . . . . . Apr, p 22
Integrated Circuit Geometry and Optimum Chip Size, M. Phister, Jr . . . . . Nov, p 30
Integrated Circuit Manufacturing Costs, M. Phister, Jr . . . . . Oct, p 34

Timing Circuit Generates Selectable Clock Frequencies, F. Chitayat . . . . . Dec, p 104

## DIGITAL MATHEMATICS

**Arithmetic**

Implementation of Division Algorithm Halves Iteration Time, N. Markin . . . . . July, p 129

**Digital Logic and Switching Theory**

Number Sorting Algorithm Saves Processing Time, M. Newman . . . . . Apr, p 104

Software Minimizes Multiple Output Boolean Functions, C. E. Beeson . . . . . Jan, p 118

**Logic**

Logic Variable Format Techniques For Efficient Process Control I/O, R. Bhargava and A. K. Chandra . . . . . May, p 203

**Number Representation and Conversion**

Practical Hardware Solutions for 2's Complement Arithmetic Problems, T. V. Nguyen . . . . . July, p 105

## INPUT/OUTPUT

**Controllers**

Designing a Microprocessor Driven Multipurpose Peripheral Controller, R. F. Binder . . . . . Apr, p 83

Dynamic RAM Controller Performance/Cost Tradeoffs, A. Volk . . . . . Mar, p 127

**Displays**

An Overview of Military Tactical Display Terminals, E. W. Gennetten . . . . . May, p 191

**Graphics**

Semiconductor Advances Boost Digital Image Processing System Performance, H. C. Andrews . . . . . Sept, p 93

**Interfacing**

Noise Tolerant Computer Link, NASA . . . . . Aug, p 168

**Printer Technologies**

Print Quality Tradeoffs in Ink Jet Technology, J. D. Hill . . . . . Sept, p 122

Thermal Printhead Technology and Design, W. Boles . . . . . Oct, p 134

Trends in Computer Printer Technology, I. L. Wieselman . . . . . Jan, p 107

**Voice**

Speech Input System Aids Parts Traceability In Hybrid Bonding Facility . . . . . Nov, p 82

Speech Recognition Technology, E. J. Simmons, Jr . . . . . June, p 95

**General**

Technology and Economics: Optimum Preventive Maintenance Strategy, M. Phister, Jr . . . . . Mar, p 38

## MEMORY/STORAGE

**Bubble**

Bubble Memory Recorders for Space Applications, O. D. Bohning . . . . . June, p 115

Major Activity in Magnetic Bubble Technology, H. Chang ..... Nov, p 117
Operation of a Block Replicate Bubble Memory System, G. Cox ..... Apr, p 168

**Reliability**

Improving Memory Reliability Through Error Correction, A. V. Ferris-Prabhu ..... July, p 137
RAM Reliability in Large Memory Systems—Improving MTBF with ECC, R. Koppel .... Mar, p 196
Significance of Predicting MTBF, R. Koppel ..... Feb, p 148

**Semiconductor**

Add-In Cache Memory Doubles Minicomputer Processing Speed, R. N. Monroe ..... Oct, p 115
Compatible ROM/EPROM Families Add Flexibility to Microprocessor Designs, T. Coffman ..... Nov, p 185
Dynamic RAM Controller Performance/Cost Tradeoffs, A. Volk ..... Mar, p 127
Guidelines for Designing Battery Backup Circuits for CMOS RAMs, D. C. Young ..... Aug, p 117
RAM Reliability in Large Memory Systems—Improving MTBF with ECC, R. Koppel .... Mar, p 196
Significance of Predicting MTBF, R. Koppel ..... Feb, p 148
Semiconductor Memory Update—Part 1: ROMs, E. R. Hnatek ..... Dec, p 67
Update on EPROMs, M. Adan and S. Smith .. Jan, p 162

**Testing**

RAM Tester Adapts to Memory Interface Requirements, A. W. Bentley ..... June, p 124

**General**

Disc File Actuator Design Permits Increased Track Density, R. W. Lissner, *et al* ..... Feb, p 116
Guidelines for Designing Battery Backup Circuits for CMOS RAMs, D. C. Young ..... Aug, p 117

## MICROCOMPUTERS

**Applications**

Adapting Microcomputer Technology to Controller Applications, G. Adams ..... Aug, p 194
The AMI/Berkeley Match Program— An Industry Sponsored Microcomputer Project Laboratory, Part 1, H. S. Stone ..... Jan, p 142
Part 2, H. S. Stone ..... Feb, p 136

**Architecture**

Interfacing Fundamentals: The 6801 Single-Chip Microcomputer, A. C. Staugaard, *et al* ..... Dec, p 112

**Control and Automation**

Adapting Microcomputer Technology to Controller Applications, G. Adams ..... Aug, p 194

**Development Systems**

Comparing Microcomputer Development System Capabilities, B. E. Gladstone ..... Feb, p 83

**Interface**

Interfacing Fundamentals:
Direct Memory Access, D. G. Larsen, *et al* ..... Mar, p 176
Hardware Encoded and Scanned Keyboards, J. A. Titus, *et al* ..... June, p 158
Multiplexed LED Display—Part 1, C. A. Titus, *et al* ..... Apr, p 128
Part 2, P. R. Rony, *et al* ..... May, p 228
6800 I/O and System Configuration, J. A. Titus, *et al* ..... Oct, p 147

**Programming**

Adapting Control and Arithmetic Subroutines to Single-Chip Microcomputers, L. Smith .. Aug, p 127
Indexed Addressing for Microcomputers, W. Hertz ..... Jan, p 99
Interfacing Fundamentals:
Realtime Clock Hardware and Software, P. R. Rony, *et al* ..... Jan, p 126
Sorting, D. G. Larsen, *et al* ..... July, p 150

**Software**

Interfacing Fundamentals: Lookup Tables, J. A. Titus, *et al* ..... Feb, p 130

**General**

Interfacing Fundamentals:
An Introduction to the Motorola Microprocessor/Microcomputer Family, A. C. Staugaard, *et al* ..... Aug, p 170
Realtime Clock Hardware and Software, P. R. Rony, *et al* ..... Jan, p 126

## MICROPROCESSORS

**Architecture**

Comparing Architectures of Three 16-Bit Microprocessors, H. A. Davis ..... July, p 91
Interfacing Fundamentals:
The 6800 Instruction Set, A. C. Staugaard, *et al* ..... Sept, p 142
6802 and 6808 Microprocessors, D. G. Larsen, *et al* ..... Nov, p 151

**Bit Slice**

Bit Slice Approach for Small Stack Processor Aids Design of Blending System, G. A. Cummings and G. S. Miller ..... Oct, p 74
Bit-Slice Technique Minimizes Microcontroller Cost/Complexity, D. Hooley ..... Oct, p 105
8-Bit Slice ECL Computer Component Family, P. Chu ..... Dec, p 134
Variable Microcycles Improve Speed of Bipolar Bit Slice Processor, H. Brineen ..... Oct, p 168

**Interface**

Intelligent Controller Increases Data Throughput, Reduces Host Overhead, C. A. Samuelson ..... July, p 120
Interfacing Fundamentals: 6800 I/O and System Configuration, J. A. Titus, *et al* ... Oct, p 147
Multiplier/Divider Hardware Design Accelerates Microprocessor Throughput, F. G. Gerberich and R. S. Rodgers ..... June, p 105

### Microprogramming

Bit-Slice Technique Minimizes Microcontroller Cost/Complexity, D. Hooley ..... Oct, p 105

Implementation of Division Algorithm Halves Iteration Time, N. Markin ..... July, p 129

### Multiprocessor Systems

Standard Modules Offer Flexible Multiprocessor System Design, A. D. Hirschman, *et al* ..... May, p 181

### Software

Software Technique Overcomes Register Deficiency, G. Gaugler ..... Jan, p 124

### System Design

Compatible ROM/EPROM Families Add Flexibility to Microprocessor Designs, T. Coffman ..... Nov, p 185

Timing Circuit Generates Selectable Clock Frequencies, F. Chitayat ..... Dec, p 104

### Test

Logical Environment Comparison Testing Handles Complex LSI Devices, A. Bluestone ..... Apr, p 95

### General

Interfacing Fundamentals: An Introduction to the Motorola Microprocessor/Microcomputer Family, A. C. Staugaard ..... Aug, p 170

## SOFTWARE

### Applications

Automatic Network Synthesizer Identifies Standard LSI Cells, J. R. Logan ..... Sept, p 113

High Level Design Language Develops Low Level Microprocessor-Independent Software, D. B. Wecker, *et al* ..... June, p 140

### Microprocessor/Microcomputer

Adapting Control and Arithmetic Subroutines to Single-Chip Microcomputers, L. Smith .. Aug, p 127

High Level Design Language Develops Low Level Microprocessor-Independent Software, D. B. Wecker, *et al* ..... June, p 140

Interfacing Fundamentals: Lookup Tables, J. A. Titus, *et al* ..... Feb, p 130

A Software Based Approach to Priority Interrupts, B. K. Gupta ..... Aug, p 142

Software Technique Overcomes Register Deficiency, G. Gaugler ..... Jan, p 118

### Operating System

A Software Based Approach to Priority Interrupts, B. K. Gupta ..... Aug, p 142

### General

Assembler Streamlines Microprogramming, T. Balph and W. Blood ..... Dec, p 79

Logic Variable Format Techniques For Efficient Process Control I/O, R. Bhargava and A. K. Chandra ..... May, p 203

Software Minimizes Multiple Output Boolean Functions, C. E. Beeson ..... Jan, p 118

## TESTING

### Board/Component

Logical Environment Comparison Testing Handles Complex LSI Devices, A. Bluestone ..... Apr, p 95

### Error Checking

Data Communications Testing Overview—Digital Testing, J. R. Duerr ..... Mar, p 12

Improving Memory Reliability Through Error Correction, A. V. Ferris-Prabhu ..... July, p 137

RAM Reliability in Large Memory Systems—Improving MTBF with ECC, R. Koppel .... Mar, p 196

Software Error Checking Procedures for Data Communication Protocols, J. Wong, *et al* ..... Feb, p 122

### System

Troubleshooting Microprocessors with a Logic Analyzer System, R. Lorentzen ..... Mar, p 160

### General

RAM Tester Adapts to Memory Interface Requirements, A. W. Bentley ..... June, p 124

## MISCELLANEOUS

### Economics of Digital Electronics

Technology and Economics:

IC Power Dissipation vs Price, M. Phister, Jr ..... Apr, p 22

Integrated Circuit Geometry and Optimum Chip Size, M. Phister, Jr. ..... Nov, p 30

Integrated Circuit Manufacturing Costs, M. Phister, Jr ..... Oct, p 34

Manufacturing Cost for a Microprogrammed System, M. Phister, Jr ..... Dec, p 26

Optimum Preventive Maintenance Strategy, M. Phister, Jr ..... Mar, p 38

Potential Computer Market Elasticity—I, M. Phister, Jr ..... July, p 30

Potential Computer Market Elasticity— II, M. Phister, Jr ..... Aug, p 42

Power System Packaging Considerations, M. Phister, Jr ..... May, p 38

Relationship Between Diagnostic Programs and MTTR, M. Phister, Jr ..... June, p 44

System Performance and Workloads, M. Phister, Jr ..... Sept, p 42

### Programmable Calculators

Forecasting Computer System Reliability with a Handheld Programmable Calculator, R. Zussman ..... Mar, p 141

Reliability Computations on a Handheld Programmable Calculator, C. R. Lewart ..... Nov, p 138

POCKET ASCII TERMINAL

MIDGET DUPLEX UNIT WITH MAN-SIZED CAPABILITIES

Here's $395 worth of convenience for anyone working with digital systems. Carry it anywhere in a pocket, valise or toolkit to enter and retrieve data, run diagnostics, change constants, test data links, etc.

Look at its facilities:

- Transmits 128 ASCII codes
- Can display last 30 characters received
- Displays full 64-character ASCII set on clear 16-segment LEDs
- 25-line RS232/c compatible interface
- Single 5V supply required at 400mA typical
- 110 or 300 baud transmission selectable
- Parity codes, stop bits settable to your standard
- Obeys bell, cursor and data format control codes

*Phone or write us for more details now:*

GR ELECTRONICS,
1640 Fifth Street,
Santa Monica, CA 90401.
Telephone: (213) 395-4774.
Telex: 65-2337 (BT Smedley SNM).
